Neil advised that limiting membership would exclude the club from applying for grants.

Membership Record in now two separate records – one for current and new paid-up members.

The second records past members who are not financial. For these unfinancial members wanting to pay up for the new season; the re-joining fee as above will apply plus subscription.

- b. Jeff Reardon – There will be 3 full time MPI officers working the Kaikoura coast by Christmas, also 5 volunteer officers who will each do 100 days work per year.

In the past officers from Blenheim and Nelson would also come to Kaikoura to help coast patrols. The Runanga have asked if they can be part of the recruitment team in the future. Submissions- re the Paua opening, seems the leading recommendations will come from the Marine Guardians and then everyone else's recommendations will come behind. MPI will make sure that Runanga advice will be heard and not overlooked.

The Kina fishery will reopen and will possibly remain open as opposed to a seasonal Paua opening.

- c. Richard Craig reported on the Guardian.
